Designer: Aiya Lisova. **Company:** AIYA Bureau, Moscow, Russia. A graduate of Moscow's International School of Design and London's Chelsea College of Art, Aiya founded her eponymous firm in 2013, now also based in London and Limassol, the studio creates personal, modern interiors worldwide. Recent projects include the restoration and preservation of Aiya's own historic apartment in Moscow's Seven Sisters high rises, where modern and vintage furniture are combined with contemporary art and African and Indonesian treasures collected on her travels. **Design philosophy:** in pursuit of the balance between the designer's vision and the client's authentic individuality.
